Union Employee Discount

Union employees can attend fee-based courses at a discounted rate that will cover the variable costs. For hybrid courses, employees can attend the online session for free but they will need to cover the cost of the in-person course.

Participants with those conditions are limited to 5 per course. To sign-up, the employee supervisor must send a request to unioncourses@theunion.org

Places are available on a first-come first serve basis with a preference to employees that have not yet attended a course.

Early-Bird Discount

Participants may take advantage of the early-bird discount of 5% by registering **and paying** for the course three months prior to the course. The early bird discount applies to all fee-based courses offered by The Union.

Group Discounts

Organizations sending more than 5 participants to a single fee-based course will be eligible for a 5% discount when registering for the course.
